FOOD ENGINEERING INDEX

January to December, 1971—Volume 43

A

Additives
Curing pickle additive dissolves in 15 sec (I)....Dec. 38
FE makes additive headlines....May *63
Take tip from Wodicka on additive hazards. Frank K. Lawler....May 61
Activator—Bin activator (nes)....Sept. *191
Aerospace—Ideas from NASA....Oct. *82
Air Cleaner—Compact air cleaner is easy to maintain (sm)....Feb. *126
Air Curtain
Air curtain (nes)....June *113
Heated air curtain (nes)....Jan. *122
Air Drying—Tests new drying technique....Oct. 151
Air Pollution
Armour fights pollution with posters (pi)....Nov. *109
Curbs air pollution, cuts product loss (dib)....Nov. *123
Albumen—Instant albumen makes superior maringue (i)....July *47
AMA Show—Packaging equipment advances....July *76
Analyzer
Analyzes process streams (nes)....Nov. *186
Checks produce for internal quality....Feb. *131
Innovates better-quality beef. D. Swan & John V. Ziemba....July *63
Teams analysis, data processing....Oct. *107
Aseptic Processing—Aseptic process protects product....May *133
Automation
Automates control of carton bundling (dib)....Jan. *97
Automating specialty-food processes. W. W. Winters....June *68
Automation triples output. Kraft, William & Ziemba, John V....Dec. *96
Makes 16,000 pies per hour. E. M. Hargreaves....July *67
Meters grains on the run. Claude B. Nolte....April *78
New technique packs spaghetti automatically....April *75

B

Bacon—Cans prefried bacon (pi)....May *103
Bagger
Automatic bagger (np)....Oct. *40
Innovates with muffins....June *91
Baking—Improves baking processes....Aug. 87
Baler—Tyer and baler (nes)....May *209
Belts
Flexible timing belt (nes)....May *208
Food handling belt (nes)....Sept. *183
Jam-proof belt (nes)....Nov. *189
Solid steel belt (nes)....April *120
Beverages
Develops milk-orange juice. D. R. Shenkenberg & J. C. Chang, & L. F. Edmondson....April *97
New high in beverage canning. Paul J. Hardesty & John V. Ziemba....July *83
Bins
Rim-bin: for versatile efficient handling..Sept. *99
Silos and bins (nes)....Aug. *94
Blancher—Heats blanching water efficiently (dib)....Oct. *109
Blanching—Reduces effluent from blanching. M. E. Lazar, D. B. Lund, W. C. Dietrich....Aug. *54
Blender—Ribbon blender (nes)....Aug. *93
Blending System—Sanitary system speeds grinding and blending....Dec. *60
BOD—Reduces BOD 80–95% in 2 hr. (nes)...July *134
Botulism
Botulism case brings praise and challenge....Aug. *45
Inhibits food spoilage caused by Botulism (at)....Dec. 95
NCA moves to zero botulism odds. Frank K. Lawler....Dec. 47
Bottle Cleaner—Designs own equipment. Allen Hemphill....Dec. *53
Bottling
Fills 1200 bottles per min....July *151
Pioneers in ecology. Kevin J. Hannigan....July *58
Bread—A family affair (pp)....Aug. *38
Breading—Simple, automatic breader (nes). Oct. *140
Brewery—Meters grains on the run. Claude B. Nolte....April *78
Brinemaking—Simplifies brinemaking. M. Kellogg & J. W. Reynolds....Sept. *119
Bundler
Automates control of carton bundling (dib)....Jan. *97
Bundles 50 variety packs per min. (dib)...Jan. *97
Butter—Butter wins again (at)....Oct. 125
Buyer's Guide
Buyer's Guide ingredients....May 152
Buyer's Guide packaging....March 125
Buyer's Guide plant equipment....Sept. *137
Buyer's Guide process equipment..Nov. G 4 to G 40

C

Calculator
Slide calculator (nes)....July *135
Solves engineering problems (nes)....April *116
Candy
Erin creates...peaches-and-cream candy. Frank K. Lawler....June *57
Urges improved candy marketing....Aug. 99
Canning
Improves canning quality. John Schmidt. Nov. *65
New high in beverage canning. Paul J. Hardesty & John V. Ziemba....July *83
Others put their labels on its quality...April *59
3-in-1 meat canning line...T. O'Shea and W. Domovich....Oct. *84
Can Stretcher—Stretches metal cans....March *97
Carbon Dioxide—freezes with CO_2....Jan. *110
Carbonation—Carbonation system aids sugar refining. F. Desmond & A. Alba..April *107
Cartoning—Counts, stacks pouches for cartoning (np)....Jan. *32
Casing—Rectangular 'drum' saves $....Sept. *56
Cereal
Cearl hydrolysates finding new uses (I)..Feb. *47
Maple-flavored cereal boosts nutrition (pp)....Sept. *50
Charts & Tables
Controls beverage quality with electrodes. C. C. Westcott....July *115
Executives look at '71. Frank K. Lawler...Jan. *51
How to select emulsifiers. J. B. Mickle....July *68
Less chance of leakers....Feb. *54
Relates density to % solids. Joseph A. Perry....May *78
Retort pouch...nears commercial reality. K. G. Knight....March *64
Reverse osmosis engineering considerations. F. Besik, G. Zarnett, V. Pancuska and A. Mlynarczyk....July *72
Textured vegetable proteins come of age. R. E. Martin, Ralph Wiggins and John Ziemba....May *81
Washington views '71. George Baker....Jan. 54
Cheese
Agent cuts cost of cheese flavoring (I)....Sept. *45
Automates cheesemaking....April *129
Controls cheese 'meltability'. John V. Ziemba....Oct. *59
Extracts bitter flavors from cheese (at)...June 107
Simplifies processing of quark cheese (I)..July 48
What's new in cheese making....Aug. *65
Chiller—Hot dog chiller (nes)....Sept. *184
Chromatography—Sharpen analytical methods....May *149
Citrus—Citrus flavor packs enhance beverages (I)....Dec. *35
Citrus Fruit—Measures fungicide in citrus fruit (at)....June 107
Cleaner
Alkaline cleaner useful in hard, soft water (sm)....Jan. 128
Cleans air two ways. L. Benson....Sept. *113
Container lip cleaner (nes)....Oct. *141
Cleaning
Cuts cleaning costs. George H. Heimel, Sr. & Robert R. Sistowicz....Dec. *90
Cuts cleaning time (dib)....June 95
Closing Unit—Compact unit closes beer cans at 600 CPM (np)....Nov. *32
Coatings
Coats foil trays against high-acid foods (np)....Dec. *23
Extends shelf life (np)....Dec. 23
New cures for can coatings (ppo)....Jan. 25
Novel coating for frozen foods (at)....Dec. *95
Paint features safety and utility (sm)....Jan. 128
Coffee
Develops continuous pressure roaster. Frank K. Lawler....Feb. *67
Gas-packs coffee in bags. Carl R. Havighorst....Feb. *76
Coils—Heating coils (nes)....Sept. *186
Color
FDA approves new red color (I)....Sept. *48
Puts FD&C lakes in easy-to-use form (I)..Jan. *39
Compressor
Compressor (nes)....May *209
Compressed air 99.99998% clean....Sept. *210
Innovates use of screw-type compressor (dib)....April *105
Oil free compressor (nes)....June *113
Screw compressor (nes)....April *117
Computer
Builds process computer....Feb. 41
Computers control operations. M. E. Smith....June *62
Computer controls panels (tm)....Feb. 27
Computer controls process....June *52
Computer helps fishermen (tm)....Dec. 19
Computer saves maintenance labor....Jan. *125
Keeps track of costs....Feb. *116
Monitors production by computer (dib)...Sept. *109
Simplifies sequence control....Oct. *122
Construction—Tips on building construction....Sept. 106
Consumerism
Time is right to foster consumer favor. Frank K. Lawler....Feb. 57
You can listen too much, talk too little...April 53
Controls—Controls process with greater accuracy (nes)....Jan. *114
Convenience Foods
Creative foods enter spotlight....May *48
From kitchen to store in six weeks....Oct. *54
Sweet convenience (pp)....Nov. *49
What to know about "pre-whips". John V. Ziemba & Justin J. Alikonis....May *72
Conveyor
Bottle conveyor (nes)....Oct. *149
Carton conveyors (nes)....June *113
Conveyor (nes)....June *117
Conveyor belt cleaner (nes)....Oct. *141
Conveyor controller (nes)....July *135
Conveyor belt wiper (nes)....June *115
Conveyor gate (nes)....Aug. *93
Conveyor switch (nes)....Aug. *96
Curved conveyor (nes)....Oct. *145
Enclosed conveyor (nes)....April *117
Live roller conveyor (nes)....Sept. *184
New vibrating conveyor design (nes)....Aug. *92
Overhead cap conveyor (nes)....Nov. *189
Plastic-top conveyor....Jan. *115
Simplifies handling, storage of canned goods (dib)....Aug. *81
Spiral conveyor system (nes)....June *116
Spiral conveyor (nes)....Feb. *119
Telescoping conveyor (nes)....Dec. *104
Conveyor Belting—What new conveyor belting can do for you. R. DuBois....June *97
Cooler—Pasteurizer/cooler (nes)....July *144
Corrosion—Corrosion (nes)....Sept. *191
Corrugated—Wet corrugated stays rigid....Jan. *135
Costs
Freezing systems: Investment and operating costs....Sept. 76
Modular fabrication cuts plant costs. Carl R. Havighorst....Sept. *69
Counter
Count, load unit (np)....Sept. *34
Counts, wraps small cubes....Oct. *132
Crabs—Saves on processing of dungeness crabs. W. Engesser, B. Adams, and P. Willis....Oct. *70
Cryogenic Freezer—Cryogenic freezer fills capacity gap....Feb. *124
Cultures—Storing cultures at 3C slows acid production (at)....April 111
Curing—Salt-free olive curing....April *134

D

Dairy
At last dairy industry fights back....Jan. 49

KEY TO DEPARTMENTS

KEY TO DEPARTMENTS

(at)	Advances in Technology
(dib)	Doing It Better
(fl)	For the Lab
(i)	Ingredients
(ppo)	Packaging Pointers
(nes)	New Equipment & Supplies
(np)	New for Packaging
(pp)	New Packages & Products
(pi)	Practical Ideas
(sm)	Sanitation & Maintenance
(tm)	Tips to Management

© Chilton Company, Chestnut & 56th Sts., Philadelphia, Pa. 19139

Index to Vol. 43, January, 1971 to December, 1971

Develops unique cultured dairy product . April *50
Low-cost dairy blend (I) ..... June 37
Maximizes efficiency and sanitation. Robert Dahlof & John V. Ziemba ..... Sept. *89
Data System—Data system monitors 40 chromatographs ..... May 224
Desserts
For lunch kits (pp) ..... Oct. *51
Makes multi-layered gelatin desserts (at) Sept. 125
New malt liquor entry offers flavor choice (pp) ..... May *39
Non-refrigerated gels save time and labor (pp) ..... May *38
Detector
Detects trace metals to 0.01 PPB..... July *133
Detects tramp metal with line sensor (dib)..... Sept. *110
Level detector (nes) ..... Oct. *142
Low-cost leak detector ..... March *32
Tells if frozen foods thaw out (nes)..... Sept. *182
Diagram—Digital controllers can save you money ..... July *86
Dietetic—A family affair (pp) ..... Aug. *38
Digital Controller—Digital controllers can save you money..... July *86
Discs—Rotating discs heat product (nes)... June *112
Dispenser—Dispenser (nes)..... Sept. *184
Distillation
Advances mint-oil production. W. T. McKean..... Feb. *101
Improves distillation (at) ..... Nov. 140
Distribution
Cuts distribution costs (tm)..... Oct. 29
Efficient distribution key to future profits. Frank K. Lawler..... March 51
Simplifies distribution ..... July *158
Dough—Dough improvers portion-packed (I)..... April *37
Donut—Microwaves proof donuts. James R. Russo ..... April *55
Drier
Air dryer (nes) ..... Feb. *120
Spray dryer (nes) ..... Feb. *121
Dryer—Vacuum dryer (nes) ..... Dec. *103
Drying
Develops novel dual dryer. R. E. Meade ..... July *88
Tests new drying technique. Gerhard J. Haas ..... Nov. *58

E

Economics
Dairy automation reduces operating cost (at)..... Sept. 126
Executives look at '71. Frank K. Lawler... Jan. *51
Innovations cut operating costs ..... Sept. *122
Shockingly wrong about profits. Frank K. Lawler..... Jan. 49
Your purchases will cost 6–9% more in '71. Kevin J. Hannigan ..... Jan. 59
Washington views. George Baker ..... Jan. 54
Economy—New Nixon policies to benefit food industry. Frank K. Lawler ..... Sept. 59
Egg
Better-way egg handling ..... Oct. *67
New product trends (pp) ..... July *55
Electrode
Controls beverage quality with electrodes. C. C. Westcott..... July *115
Predicts oil stability. V. Spiehler..... Aug. *77
Electronic—Measures oil electronically (nes) ..... Sept. *182
Electronic Controller—Laser controls thickness. Frank K. Lawler..... Nov. *56
Emulsifiers—How to select emulsifiers. J. B. Mickle ..... July *68
Enzymes—Produces milk-clotting enzymes from molds (at)..... Aug. *85
Equipment
Adapts machine to pizzas..... Jan. *81
Agglomerator (nes) ..... July *143
Air curtain (nes) ..... June *113
All purpose truck (nes) ..... March *163
Analyzes process streams (nes) ..... Nov. *186
Attachment (nes) ..... Oct. *148
Automatic sampler (nes) ..... April *117
Bag slitter (nes) ..... Nov. *188
Barrel Opener (nes) ..... March *163
Blending system (nes) ..... April *117
Bottle cap feeder (nes) ..... Nov. *187
Brix Indicator (nes) ..... April *118
Centrifuge (nes) ..... Nov. *190
Chart integrator (nes) ..... Sept. *183
Coils keep heat exchanger clean (nes).... Dec. *102
Color measuring device (nes) ..... Oct. *141
Colorimeter (nes) ..... Nov. *187
Condenser (nes)..... May *210
Continuous poultry cooker (nes) ..... March *165
Conveying system (nes)..... Nov. *187
Cooling tower (nes) ..... March *170
Conveyor (nes) ..... Nov. *187
Conveyor belt cleaner (nes) ..... Oct. *141
Crusher (nes)..... Dec. *107
Cutter (nes)..... July *143
Cuts drive cost 15% ..... April 35
Dehumidifier (nes) ..... Dec. *103
Designs own equipment. Allen Hemphill . Dec. *53
Drop feed oiler (nes) ..... April *122
Drum opener (nes) ..... July *147
Drum proportioner (nes) ..... March *163
Edge guide control (nes) ..... May *209
Elevating system (nes)..... Sept. *186
Enclosures (nes) ..... July *136
Ethylene oxide chamber (nes)..... Jan. *115
Extracts meat from shellfish (nes)..... Nov. *186
Fast oil changer (nes)..... Nov. *190
Feed mechanism (nes)..... June *113
Feeder (nes) ..... July *144
Flexible timing belt (nes) ..... May 208
Floor scale (nes) ..... March *163
Flour handling system (nes)..... April *118
Flowmeter (nes)..... April *117
Fluid bed (nes)..... Nov. *187
Fluid bed dryer (nes)..... May *213
Food pump (nes)..... March *163
Freeze tunnel uses CO_2 (nes)..... Oct. *140
Fryer (nes)..... July *135
Grinding mill (nes) ..... Sept. *183
Guide rails (nes)..... Oct. *148
Handling system (nes)..... June *117
Heat transfer jacket (nes)..... Dec. *103
Heats fluids faster (nes)..... April *116
Heavy-duty air cooler (nes)..... Oct. *141
Heavy duty scale (nes)..... May *218
High torque drive (nes) ..... July *135
Homogenizer (nes) ..... July *135
Hopper (nes)..... June *114
Ice cream plant (nes) ..... Nov. *187
Ice cream sandwiches (nes) ..... Dec. *103
Improves weight-feeder accuracy (nes). March *162
Incinerator (nes) ..... June *114
In-line stacker (nes) ..... Nov. *188
Ingredient bin (nes) ..... Feb. *120
Inspects 4000 containers per min. (nes).... Oct. *140
Laser optical control (nes)..... Sept. *183
Low-cost plastic tanks (nes)..... Dec. *103
Magnetic unscrambler (nes) ..... March *163
Measures flow of solids (nes)..... Dec. *102
Metal trap cleans itself (nes)..... Feb. *118
Metering pump (nes) ..... June *113
Micromixer (nes)..... Jan. *121
Microwave moisture gage (nes) ..... July *136
Mobile racks (nes)..... April *118
Modular programmer (nes) ..... March *163
Moisture gage (nes) ..... Dec. *103
New sheaves (nes) ..... May *217
New way to measure density (nes)..... June *112
New way to remove dust (nes) ..... May *208
Pantleg chutes (nes) ..... March *166
Peels, steams and cores apples (nes) ... March *162
Pelletizer extruder (nes)..... May *213
Plastic drum (nes)..... Dec. *107
Plastic netting (nes) ..... May *209
Plastic pallet (nes)..... Oct. *141
Plastic v-belt (nes)..... March *169
Portable oscilloscope (nes) ..... Feb. *119
Power sieving unit (nes) ..... Dec. *103
Power centers (nes)..... Nov. 190
Pre-filter (nes) ..... May *217
Primal fat shaper (nes)..... Sept. *183
Process pump (nes) ..... Nov. *187
Product reclaimer (nes) ..... Dec. *104
R & D spray dryer (nes) ..... Nov. *187
Rapidly mixes viscous liquids (nes)..... Dec. *102
Recovers oil from water (nes)..... March *163
Refractometer (nes)..... Dec. *103
Revolution counter (nes)..... Nov. *187
Rider/walkie (nes)..... Feb. *120
Rotary chipper (nes) ..... Feb. *121
Rotary screw compressor (nes)..... May *214
Rotating forks (nes)..... May *209
Screens beans at 4500 lb per hr ..... April *116
Shrink tunnel (nes) ..... July *135
Signal system (nes) ..... March *165
Simple, automatic breader (nes) ..... Oct. *140
Size grader (nes) ..... June *113
Size reducer (nes)..... Nov. *188
Small hoist (nes) ..... May *214
Solves engineering problems (nes)..... April *116
Speed reducer (nes)..... March *166
Stacking frame (nes)..... March *165
Stacking racks (nes) ..... May *220
Starch dryer (nes) ..... Nov. *188
Tank scraper (nes)..... Dec. *104
Tells temperature during freezing (nes).. May *208
Temperature (nes) ..... April *122
Temperature recorder (nes) ..... April *117
Thawing unit (nes)..... Feb. *119
Thin flakes (nes) ..... Feb. *119
Turbidimeter (nes) ..... April *117
Twist section (nes)..... March *163
Tygon Y-connectors (nes) ..... Jan. *115
Ultrafiltration (nes)..... Feb. *119
Utrasonic flowmeter (nes) ..... Oct. *141
Valve has teflon (nes)..... Nov. *189
Vibrating screen (nes)..... Oct. *141
Walkie stacker (nes)..... Oct. *148
Washer (nes)..... March *174
Washes shackles automatically (nes)..... Feb. *118
Waste compactor (nes) ..... Feb. *119
Weighcell (nes)..... Dec. *103
Evaporators
Cools wine efficiently (dib) ..... May *119
Evaporative method cools vegetables (pi). Oct. *91
Extractor
Eliminates hand-picking of shellfish ..... Dec. *100
Extracts meat from shellfish (nes)..... Nov. *186

F

FDA
Botulism case brings praise and challenge. Frank K. Lawler..... Aug. 45
FDA destroys a food industry. Frank K. Lawler ..... June 55
Food industry faces regulation crisis. Frank K. Lawler ..... Oct. 57
New criteria proposed for GRAS category (I) ..... Feb. 48
Revises criteria for GRAS ..... Aug. 89
Solve safety problems with process advances. Frank K. Lawler ..... Nov. 51
FE Reaction Survey—How homemakers react to tuna withdrawal..... Jan. 18A
FE Shows
8 units improve production (confectioners show)..... Oct. *115
11 aids to production..... July *122
15 unit-operation advances (DFISA) ..... Feb. *80
Latest in packaging (DFISA) ..... Jan. *70
New unit to improve processes..... April *66
Packaging equipment advances ..... July *76
Plant engineering & maintenance show . Sept. *104
10 advanced packaging units ..... March *90
21 production advances (AMI)..... Dec. *78
12 tips for better plant services ..... Sept. *104
What's new in bottling machines (bottlers show)..... March *150
FPC
FPC affects dough, lysine doesn't (at).... Aug. 85
FPC demonstration plant on-stream. Carl Havighorst ..... Nov. *68
Fabrication—Modular fabrication cuts plant costs. Carl Havighorst..... Sept. *69
Feeders
Improves weight-feeder accuracy (nes). March *162
Vibratory feeder (nes)..... Sept. *183
Fermentation
Fermentation converts cellulose to proteins (at)..... May 145
Filters air effectively..... Jan. *84
Speeds fermentation of processed meats (i)..... March 38
Fiberglass Tanks—Cuts tank maintenance, replacement costs (dib)..... Dec. *87
Filler
Bundles in kraft (np) ..... Feb. 36
Double-acting piston speeds filling (np)... Feb. *35
Drum filler (nes) ..... Sept. *186
Filler is versatile (np)..... Feb. *36
Fills 1200 bottles per min ..... July *151
Has volumetric fill (np)..... Oct. 40
Kettle-filler unit speeds pkg..... July *127
Pastry filler (nes) ..... July *140
Twin auger filler is adjustable (np)..... July *41
Vacuum filler (nes)..... Jan. *117
Volumetric filler net-weighs load (np) .... July *38
Film
Film cuts costs (np) ..... Sept. *33
Shrinks film over load protects quality. James R. Russo..... Feb. *72
Filters
Air filters (nes) ..... Jan. *115
Filters air effectively ..... Jan. *84
In-line filter (nes) ..... July *140
Liquid filter (nes) ..... April *125
Liquid filter (nes) ..... Jan. *121
Filtration—Micro-filter membrane can be backwashed. R. H. Eymann ..... Dec. *58
Fish
Enhances texture of fabricated seafood. R. J. Learson, B. L. Tinker and L. J. Ronsivalli..... Feb. *87
Fish scrap offers high quality protein. J. H. Carver & F. J. King ..... Jan. *75
Flavors
Aids flavor control (i)..... Jan. 41
"Built-in" flavors (pp) ..... Oct. *50
Deodorizing milk fat improves flavor (at).. July 125
Detects synthetic culture flavors (at)..... Jan. 105
GLC and taste panel aid flavor testing (at)..... Jan. 105
Homemade flavor (pp)..... Sept. *53
Improve flavor of cheddar curd (at)..... Feb. *111
Improves flavor of papaya puree (at).... Sept. 130
New butter flavor improves food acceptance (i) ..... Nov. *39
Offers improved beef flavor (i)..... Sept. *45
Offers low-cost cheddar flavors (i)..... Nov. 44
Relates potato flavor with its composition (at)..... Oct. 126
Floor
Fiberglass floor (nes)..... July *136
Mineral aggregate curbs floor erosion .... Feb. *106
Flowmeter
Flowmeter (nes) ..... Jan. *117
Ultrasonic flowmeter (nes)..... Oct. *141
Flowsheet
Automates cheesemaking ..... April 129
Automating specialty-food processes .... June *68
Carbonation system aids sugar refining. F. Desmond & A. Alba ..... April *107
Designs own equipment. Allen Hemphill .. Dec. *52
Develops milk-orange juice. D. R. Shenkenberg & J. C. Chang, & L. F. Edmondson ..... April *97
Develops novel dual dryer. R. E. Meade ... July *88

Electric charge speeds waste disposal. O. A. Clemens & John V. Ziemba ..... Aug. *47
Evaluates variables in fluidized-bed 'retorting'. R. Jowitt & S. N. Thorne ..... Nov. *60
FPC demonstration plant on-stream. Carl R. Havighorst ..... Nov. *68
Fish scrap offers high quality protein. J. H. Carver & F. J. King ..... Jan. *75
Gas-packs coffee in bags. Carl R. Havighorst ..... Feb. *76
Mechanizes age-old process. Carl R. Havighorst ..... June *60
Meters grains on the run. Claude B. Nolte ..... April *78
Reconditions brine to cut pollution. E. Lowe & E. L. Durkee ..... Aug. *50
Recycling...a must for solid wastes. Julius Brody ..... Aug. *56
Reduces effluent from blanching. M. E. Lazer, D. B. Lund, W. C. Dietrich ..... Aug. *54
Treats saline wastes at low cost ..... Aug. *55
USDA creates nutritive functional products. G. R. Hennessey, M. F. Stansbury and R. M. Persell ..... April *71
What it costs to control process odors. James H. Mueller ..... April *62
What to know about "pre-whips". John V. Ziemba & Justin J. Alikonis ..... May *72
Winemaking surges ahead. R. M. Mondavi Carl R. Havighorst ..... Feb. 59
Foils—Novel game package for easter candy (pp) ..... March *41
Food Packages—1970's outstanding food package. Carl A. Jakob ..... March *46
Food Service
Food service packaging...opportunities and challenges. Roslyn Willett ..... March *67
Sara Lee does it again. John V. Ziemba .... Feb. *63
Formers, Fillers, Sealers
Form-fill-seal cartoning system breaks the cost barrier. John V. Ziemba ..... April *68
Form-fill-seals 15 cases/per min. (np) .... Aug. *26
Makes bigger bags (np) ..... Feb. 35
Formulations—Patents revel advanced formulations ..... May G46
Freeze Dried—Extracts bitter flavors from cheese (at) ..... June 107
Freeze Drying
Dr. Louis Rey points up advances in drying and cryogenics ... Louis Rey ..... Nov. *110
Freeze-drying helps insecticide removal (at) ..... Nov. 140
Freezer
Blast freezer (nes) ..... Oct. *142
Freezer cuts maintenance ..... Oct. *158
Freezing
Cryogenic freezing system (nes) ..... Jan. *121
Freezing disrupts carrot cell structure (at) ..... Sept. 125
Tells temperature during freezing (nes) .. May *208
Tests new drying technique ..... Nov. *58
Frozen Desserts—Develops unique cultured dairy product. John V. Ziemba ..... April *50
Frozen Foods
Haute cuisine dishes just heat and eat (pp) ..... Jan. *42
Frozen sauces comes in heat 'n pour pouches (pp) ..... Jan. *42
Fully cooked, frozen school lunch entrees (pp) ..... Dec. *42
Gears production to airline needs ..... Oct. *119
Ready for frozen meats (tm) ..... Oct. 29
Re-ente.s U.S. market (pp) ..... Nov. *47
Fruit—Minimizes fruit peel pollution. R. P. Graham and M. R. Hart, J. W. Ralls, W. A. Mercer & H. J. Maagdenberg ..... Aug. *52
Fruit Filling—Advanced formulation, processing improve fruit fillings (I) ..... April *37
Frying—New oleic oil is good for potato chip frying (at) ..... Nov. 140

G

Gelatin
Computer controls process ..... June *52
Makes multi-layered gelatin desserts (at) ..... Sept. 125
Generators—Steam generator (nes) ..... Aug. *93
Gloves—New flexible gloves wear longer (sm) ..... Dec. *110
Grader—Bean grader (nes) ..... Aug. *93
Grain—Test for aflatoxin in grains (at) ..... Jan. *105
GRAS—Well-planned GRAS review challenges industry ..... July 61

H

Handling—Handles liquid eggs cuts costs 75% (dib) ..... Feb. *95
Heat Exchanger
Coils keep heat exchanger clean (nes) .... Dec. *102
Heat exchanger (nes) ..... Jan. *115
Heat Sealers—Less chance of leakers ..... Feb. *54
Heaters—Makes in-line water heater from standard pipe fittings (pi) ..... Dec. *77
Heating—Heats fluids faster (nes) ..... April *116
Hose—Clear plastic hose (nes) ..... May *209

I

Imports—Jamaica: Challenge to food processors ..... Feb. *78
Indicator—Weight indicator (nes) ..... July *148
Inflation—Asks inflation control (tm) ..... Feb. 27
Infrared
Measures moisture with infra-red. J. R. Swift ..... Dec. *83
Teams analysis, data processing ..... Oct. *107
Ingredients
Advanced formulation, processing improve fruit filling (i) ..... April *37
Agent cuts costs of cheese flavoring (i) .. Sept. *45
Aids flavor control (i) ..... Jan. 41
Batter-breading mix cuts frying time (i) .. Oct. *45
Blend offers flavor of fresh orange juice (i) ..... Oct. 46
Burnt-sugar flavor has many applications (i) ..... Oct. 45
Cereal hydrolysates finding new uses (i) . Feb. *47
Citrus flavor packs enhance beverages (i) . Dec. *35
Controlled-viscosity starches reduce time 30-50% (i) ..... July *47
Curing pickle additive dissolves in 15 sec (i) ..... Dec. 38
Dairy ingredient cuts cake formula costs (i) ..... Dec. 38
Diced prunes offered in free-flowing form (i) ..... Nov. 44
Dough improvers portion-packed (i) ..... April *37
FDA approves new red color (i) ..... Sept. *48
Fortified cakes ok'd for school programs (i) ..... July 48
High-dextrose tableting sugar offers many advantages (i) ..... Feb. *47
High-fructose corn syrup provides total sweetener requirement (i) ..... March *37
Ingredients '71 ..... May 66
Ingredients cut production costs. William L. Gallagher ..... May *115
Ingredient versatility ... spurs product development ..... May *83
Instant albumen makes superior meringue (i) ..... July *47
Low-cost dairy blend (i) ..... June 37
New butter flavor improves food acceptance (i) ..... Nov. *39
New modified starches offer unique functional properties ..... Aug. *35
New starch excels in high-speed continuous processing (i) ..... Dec. *35
Oatmeal-raisin cookie high in protein (i) .. Feb. 49
Offers improved beef flavor (i) ..... Sept. *45
Offers low-cost cheddar flavors (i) ..... Nov. 44
Offers superior blue cheese flavor (i) ..... June 37
Peanut butter powder is free-flowing (i) .. June 37
Probe ... snack-improving ingredients .... May 109
Puts FD&C lakes in easy-to-use form (i) ... Jan. *39
Regulation proposed for saccharin (i) .... Aug. 36
Sees U.S. use of FPC as food additive (i) .. June 37
Silica keeps paprika free-flowing (i) ..... Oct. *45
Silicon antifoams offer wide pH resistance (i) ..... Jan. *39
Simplifies processing of Quark cheese (i) .. July 48
Starch stabilizer can replace natural gums (i) ..... July 53
Insects
Convenient mist dispenser kills insects (sm) ..... Dec. *110
Incinerates insects on contact (sm) ..... Jan. *128
Instrumentation—Advances instrumentation ..... Sept. 197
Instruments—Report instrument advances . Nov. *115
Insulating—Reduces shrinkage of insulating cement (sm) ..... Dec. *111
Insulation—Uses new insulation (dib) ..... Oct. 109

J

Juices
Adds vitamin C to prune juice (pp) ..... Oct. *51
Bactofugation extends shelf-life of juice (at) ..... July 125

L

Laboratory Equipment
Arsenic (fl) ..... Feb. *123
Atomic oxidizer (fl) ..... April *126
Bacterial colony counter (fl) ..... Nov. *193
Bacteria detection system (fl) ..... Sept. *195
Color difference meter (fl) ..... Oct. 149
Colorimeter (fl) ..... Oct. 149
Compressimeter (fl) ..... Oct. 149
Disposable lab. coats (fl) ..... June 117
Extruder (fl) ..... Aug. *98
Grinder-blender (nes) ..... April *126
Lead detection kit (fl) ..... Oct. *149
Mercury analyzer (fl) ..... March *174
New reagent (fl) ..... June *117
Nitrates are detected (fl) ..... Nov. 193
Oxygen analyzer (fl) ..... April *126
Oxygen in headspace (fl) ..... Sept. *195
Portable refrigeration system (fl) ..... Nov. *193
Process variables (fl) ..... July *148
Protein concentration (fl) ..... July *148
R & D microwave unit (fl) ..... Oct. 149
Rapid indentification system (fl) ..... Oct. *149
Sieve shaker (fl) ..... May *223
Solids blending systems (fl) ..... Nov. *193
Licorice—Solves stickey packaging problems ..... Oct. *129
Lift Trucks
Buying used lift trucks (tm) ..... Jan. 21
Cuts handling time (dib) ..... March *104
Lift truck attachment (nes) ..... Sept. *183
Power steering aids lift-truck operation (pi) ..... March 87
Labeller—Prevent wet cans rolling into labeller (at) ..... May 146
Labeling—Improves 'brand x' labeling ..... June *101
Labels
Boosts impulse sales with pictorial label (pp) ..... Dec. *42
Convenience label offers nutritional data. John V. Ziemba ..... March *44
Multiple logo creates impact. John V. Ziemba ..... Aug. *42
Puts 'price-guide' on labels (ppo) ..... Sept. 31
Takes lead in label revision (ppo) ..... Oct. 31
Liquid Nitrogen—Increases freezer output, meat quality (dib) ..... Sept. *109
Loader
Automatic pallet loader (nes) ..... July *144
Hopper car loader (nes) ..... July *147
Loading—Railcar loading shelter (nes) ..... Nov. *189
Lubricants—New lubricants meet stricter regulations (sm) ..... Jan. 132

M

Machinery—Machine modification pays off. M. Asproyerakas ..... July *98
Maintenance
Aerosol paint remover is safe, economical (sm) ..... Oct. 154
Applies sealer cold (sm) ..... Aug. *102
Conditioner keeps boiler scale-free (sm) .. Sept. 203
Embeds blocks cold without mixing (sm) . Sept. *200
Lubricant curbs rust (sm) ..... Sept. *200
Lubricants resist adverse conditions (sm) ..... June 120
New ice melter leaves no residue (sm) ... Nov. *196
New roll-on rubber waterproofs roofs (sm) ..... June *121
Malt—New malt liquor entry offers flavor choice (pp) ..... May *38
Management
Aid culturally deprived (tm) ..... Dec. 19
Asks inflation control (tm) ..... Feb. 27
Awareness effort grows (tm) ..... Feb. 27
Borden expands in Japan (tm) ..... Jan. 21
Buying used lift trucks (tm) ..... Jan. 21
Computer controls plants (tm) ..... Feb. 27
Computer helps fisherman (tm) ..... Dec. 19
Confectioners plan (tm) ..... March 19
Cranberry business booms (tm) ..... Dec. 19
Creates superior meat (tm) ..... March 19
Cuts distribution costs (tm) ..... Oct. 29
Enterprise not free (tm) ..... Sept. 27
Five ways to cut waste (tm) ..... April 23
Flash 18 paying off (tm) ..... March 19
Food changing in Japan (tm) ..... March 19
Forms protein council (tm) ..... Feb. 27
$400,000 for research (tm) ..... Oct. 29
Generates pride in product (tm) ..... Sept. 27
Global equipment survey points up food trends (tm) ..... July 23
Helps press get it right (tm) ..... Nov. 19
How boost productivity (tm) ..... Nov. 19
How to cut rr-car damage (tm) ..... April 23
Is more general than foods (tm) ..... Sept. 27
IUFoST reports progress (tm) ..... May 25
Names industry advisers (tm) ..... Oct. 29
New airforce food system (tm) ..... May 25
New food & factories (tm) ..... Aug. 17
Jeno reveals secrets (tm) ..... Aug. 17
Keep labor factor low (tm) ..... Oct. 29
Offers exclusive licenses (tm) ..... May 25
Offers stop-gap managers (tm) ..... Nov. 19
Offices match occupants (tm) ..... Feb. 27
Pet sells research (tm) ..... April 23
Pointers for 1971 (tm) ..... Jan. 21
Pointers on training (tm) ..... Sept. 27

*** Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents.**

Index to Vol. 43, January, 1971 to December, 1971

Publishes nutrient chart (tm) ..... July 23
Ready for frozen meats (tm) ..... Oct. 29
Researching nutrition (tm) ..... June 23
See big wine boom (tm) ..... Oct. 29
Replacement hurts (tm) ..... June 23
Retired food men aid world. Frank K. Lawler ..... Dec. *50
SBA aids processors (tm) ..... Jan. 21
Sets nutrition policy (tm) ..... May 25
Spread good tuna news (tm) ..... June 23
Streamlines school feeding (tm) ..... April 23
Surveys eating habits (tm) ..... May 25
Team R & D with marketing (tm) ..... May 25
Tightens visit guidelines (tm) ..... July 23
Today, nutrition sells (tm) ..... Aug. 17
Unit pricing bombs (tm) ..... Sept. 27
What exporters say (tm) ..... July 23
What worries confectioners (tm) ..... June 23
Why new products fail (tm) ..... April 23

Materials Handling—Programs handling (dib) ..... Nov. *123

Measuring—Measures oil electronically (nes) ..... Sept. *182

Meat
Creates superior meat (tm) ..... March 19
Forms meat into logs (nes) ..... July *134
Innovates better-quality beef. D. Swan & John V. Ziemba ..... July *63
New way to fabricate meats. W. Fenters & John V. Ziemba ..... Jan. *64
Speeds fermentation of processed meats (i) ..... March 38
3-in-1 meat canning line. T. O'Shea & W. Domovich ..... Oct. *84

Meter—Meters mixed vegetables accurately (dib) ..... June *95

Microwaves
Microwaves dry pasta in 15 min. (nes) .... Aug. *92
Microwaves proof donuts. James R. Russo ..... April *56

Milk
High-protein foods made from skim milk (at) ..... Jan. 105
Simulates cow's milk with soy (at) ..... Oct. 125

Mixer
High shear mixer (nes) ..... July *144
Pipeline mixer (nes) ..... Oct. *142
Rapidly mixes viscous liquids (nes) ..... Dec. *102
Tumbler mixer (nes) ..... July *135
Ultrasonic mixer does double duty. R. Barreto ..... April *112
Uniformly blends liquids with solids ..... June *122

Mixes
Batter-breading mix cuts frying time (i) .. Oct. 45
Introduces dip mixes, adds salad dressings ..... Aug. *39

Mixing—Advances in Europe. Anthony H. Woollen ..... Nov. *75

Motors—Motor controller (nes) ..... Feb. *119

Mushrooms
Air dries mushrooms (at) ..... April 111
Vacuum cooling guards mushroom quality (pi) ..... Feb. *85

N

NASA—Ideas from NASA ..... Oct. *82

New Food Plant
Designed for expansion. Gregory Papalexis ..... Sept. *72
Erin offers major plant site benefits. Frank K. Lawler ..... Sept. *65
Features total environment control. Leo J. Grebner & John V. Ziemba ..... Sept. *61
High-rise efficiency ..... Sept. *83
Maximizes efficiency and sanitation. Robert Dahlof & John V. Ziemba ..... Sept. *89
'Mod' style for modern plant ..... Sept. *83
22 plants with purpose ..... Sept. *84

New Food Products
A summer taste (pp) ..... July *55
Adds oriental tang to U. S. favorites (pp) June *42
Adds two flavors to snack line (pp) ..... Sept. *53
Convenience product saves time, labor ... July *54
Cooked, frozen shrimp for salads, cocktails (pp) ..... May *39
Creates ... One product after another ... Oct. *64
Crispier onion ring (pp) ..... Nov. *47
Exotic skillet dinners prepare in ten minutes (pp) ..... Feb. *50
Flavorful chips made from spun protein (pp) ..... Aug. *38
For bigger appetites a little extra (pp) ... Nov. *47
Fully cooked, frozen school lunch entrees (pp) ..... Dec. *42
Gives gourmet taste to 'just plain fish' . April *46
Has 'homemade' touch (pp) ..... Sept. *50
Haute cuisine dishes just heat and eat (pp) ..... Jan. *42
Maple-flavored cereal boosts nutrition (pp) ..... Sept. *50
New product contains eight vegetables (pp) ..... Feb. *51
Oriental restaurant in your kitchen (pp) .. Oct. *50
Overlapping design has shelf impact (pp) . Sept. *50
Packs mustard in PVC jars (pp) ..... June *42
Pull-aparts feature portion control pan (pp) ..... March *40
Puts oysters on menu as year-round item (pp) ..... Sept. *50
Seasoned rice entrees for menu variety (pp) ..... Aug. *38
Thatsa thick sauce (pp) ..... July *54
Two punch blends (pp) ..... June *43

Nitrogen—Liquid nitrogen (nes) ..... July *143

Nozzle—Two-fluid nozzle (nes) ..... May *209

Nutrients—Checks food nutrients by atomic absorption (dib) ..... July *109

Nutrition
Food fortification. J. Gage ..... May 125
Nutrition by design. Kevin J. Hannigan ... Oct. 95
Nutrition gets the call. Frank K. Lawler ..... May *69
Nutritional packaging ideas ..... Oct. 169
Researching nutrition (tm) ..... June 23
Today, nutrition sells (tm) ..... Aug. 17
USDA creates nutritive functional products (part I) G. R. Hennessey, M. F. Stansbury, and R. M. Persell ..... April *71
USDA creates nutritive functional products. (part II) G. R. Hennessey, M. F. Stansbury and R. M. Persell ..... May *85

O

Odor—What it costs to control process odors ..... April *62

Oil
Advances mint-oil production. W. T. McKean ..... Feb. *101
Recovery oil from water (nes) ..... March *163

Oil Chemists—Technical tips from oil chemists ..... Feb. 113

Olive—Salt-free olive curing ..... April *134

Orange Juice
Blend offers flavor of fresh orange juice (i) ..... Oct. 46
Tests orange-juice concentrate stability (at) ..... Feb. 111

Oranges—Isolate many pigments in shamouti oranges (at) ..... July 125

Osmosis—Dries by osmosis and vacuum (at) . Jan. *105

P

PVC
Packs juice in PVC ..... June *48
Packs mustard in PVC jars (pp) ..... June *42

Packaging
Advances from Europe. Anthony Woollen ..... March 61
Aluminum can ends booming (ppo) .... March 23
Anti-litter act backfires (ppo) ..... July 31
Automatic machine packs rigid trays (np) . Dec. 24
Central packaging of red meats (ppo) .... Feb. 29
Compact unit closes beer cans at 600 CPM (np) ..... Nov. *32
Consumers back package controls (ppo) .. Dec. *21
Convenience label offers nutritional data. John V. Ziemba ..... March *44
Copolymer-coated glassine paper (np) .... Oct. *33
Counts, wraps small cubes ..... Oct. *132
Don't confuse 'em with facts! (ppo) ..... Dec. 21
Film cuts cost (np) ..... Sept. *33
Flying 'larder' has one-way ride (ppo) ... Aug. 19
Food service packaging ... opportunities and challenges. Roslyn Willett .. March *67
From Mrs. Knauer to you ... on pkg. .. March *58
Grinds out solution to waste (ppo) ..... May 27
In case you'd like to know (ppo) ..... April 27
Industry must do leading (ppo) ..... July 31
Industry service back in business (ppo) .. Dec. 21
Kettle-filler unit speeds pkg. ..... July *127
Less chance of leakers ..... Feb. *54
Look for major HDPE use (ppo) ..... March 23
Mastering packaging management (ppo) . April 27
May use wastes for power (ppo) ..... Aug. 19
Modular inserts vary the menu (np) ..... Nov. *29
More corrugated boxes needed (ppo) .... Sept. 31
More tape per roll (np) ..... Feb. 33
Necked-in cans stack more securely (np) Sept. *33
New chip package (np) ..... March *27
New technique packs spaghetti automatically ..... April *75
New use for scrap plastics (ppo) ..... Sept. 31
Nothing's too good for baby (ppo) ..... Sept. 31
Now NBS initiates standards (ppo) .... March 23
Nutritional packaging ideas ..... Oct. *169
NYU studies plastics incineration (ppo) . Nov. 23
Opens plastic or corrugated cases (np) . March *28
Package for visionary product (ppo) ..... Oct. 31
Packaging materials what type for your product? (part I) S. Sacharow ..... June *75
Packaging materials what type for your product? (part II) S. Sacharow ..... Oct. *72
Packaging systems ... what type for your product? S. Sacharow ..... Sept. *169
Pause that refreshes also pays (ppo) .... June 25
Plans changes in standards (ppo) ..... June 25
Plastic trend still up (ppo) ..... June 25
Predicts return to brand identity (ppo) ... Dec. 21
Produces labels for shippers (np) ..... Nov. 29
Puts bite on designers (ppo) ..... July 31
Puts 'price-guide' on labels (ppo) ..... Sept. 31
Rate packages by ease of disposal (ppo) . Nov. 23
Right on, NIMPA (ppo) ..... May 27
Saves with new packaging-pallet system (dib) ..... March *99
Self-help course for mechanics (ppo) ..... Nov. 23
Self-teach manual coming (ppo) ..... April 27
Solves sticky packaging problem ..... Oct. *129
Takes lead in label revision (ppo) ..... Oct. 31
Telling it like it is (ppo) ..... April 27
The insider's viewpoint (ppo) ..... June 25
3-web package extends product life (np) .. July *37
Trains and troubleshoots ..... June *118
Urges packers to 'do it right' (ppo) ..... Sept. 31
Urges waste-recovery plant (ppo) ..... May 27
Use of pails increasing (ppo) ..... July 31
Uses 7-gal bag n'box (dib) ..... March *99
Vertical packages (np) ..... March *30
When no news is good news (ppo) ..... May 27
Widens packaging options (ppo) ..... Feb. 29

Packaging Equipment
Bagger—Pneumatic bagger (np) ..... Nov. *36
Cans—Pour-or-shake' top for fibre cans (np) ..... Jan. *29

Cartoners
Cartoners (np) ..... Oct. *37
Bundles cartons at speeds to 40/min. .... Feb. *35
Versatile cartoner packs 240 cpm (np) .... Dec. *24

Cartons
New carton provides storage, easy reuse (pp) ..... Jan. *43
Tape-seals cases of random sizes (np) ... June 31

Conveyor
Vacuum-pack system boosts efficiency (np) ..... July *38

Fillers
Fills large cans (np) ..... March *28
For filling sauces (np) ..... March *28
Rapid fillers (np) ..... Sept. *40
Speeds bag filling (np) ..... Jan. 34
Versatile filler (np) ..... June *32

Formers
Automatic case former (np) ..... Sept. *40

Formers, Fillers, Sealers
Packaging machines what type for your products? S. Sacharow ..... March *70
Imprinter (np) ..... Sept. *38

Labels
Die-cut labels in roll form (np) ..... Sept. *33

Pouches
Retort pouch ... nears commercial reality. K. G. Knight ..... March *64

Weighers
Weighs, bags, dries (np) ..... Aug. *26

Wrapper
Automates wrapping for smaller plants (np) ..... Aug. *26
Low-cost unit bulk-packs buns (np) ..... June *29
Packs 1500 bpm in new-design carriers (np) ..... Dec. *24
Unit interleaves ice cream bars (np) ..... Oct. *38
Versatile wrapper (np) ..... Sept. *33
Wraps small packs (np) ..... Feb. 39

Packaging Materials
Adhesives—Helps remove labels (np) .... Jan. *29

Aluminum
Cake frostings packed in reclosable foil tubs (pp) ..... Feb. *50
Heinz Ltd. considering aluminum (ppo) .. Oct. 31

Bags
Bags ham for easy handling (ppo) ..... Dec. 21
Packs large boil-bags for volume feeding (np) ..... Sept. *34
Vacuum-packs meat in plastic bags (np) . Sept. *38
Board—Beverage board resists moisture (np) ..... April 29

Bottles
New packages and products (pp) ..... April *46
Soluble packages find new uses. James R. Russo ..... March *106
Unscrambles bottles at 400-bpm rate (np) ..... Aug. *28

Cans
Designs new can for beverages (np) ..... Dec. *23
It's here pull-open steel can ..... March *57
Necked-in cans (np) ..... May 31
Plan to recycle all steel cans (ppo) ..... Aug. 19
Puts vending line in all-steel cans (pp) . March *40

Capper
Automatic capper (np) ..... June *31
Twist-off cap for returnables (np) ..... April *29

Cartons
Carton pre-former saves on space (np) ... Sept. *34
Carton promotes corn-on-cob (pp) ..... April *46
Creamer package wins (pp) ..... April *47
Keeps chips fresh in op-art carton (pp) .. June *43
Milk carton has pre-cut pour spout (np) . Aug. *23
Simple carton design is a sales booster (pp) ..... May *39
Cartoner—Fills salt cartons at 120 per min (np) ..... May *32

XUM

Cases
Soft drink case offers several advantages (pp) ... Jan. *42
Wrap-around case converts to trays (np). Feb. *33
Versatile caser (np) ... Oct. 37
Closures
For tight closures (np) ... Aug. *23
High-speed closer (np) ... May *32
Makes closures childproof (np) ... June *27
Plastic dispensing cap is air-tight (np) ... May *31
Tube has integral plastic closure (np) ... Oct. *33
Wire ties come to produce bags (np) ... March *27
Containers
Bag-in-box designed for frozen foods (np) ... March *27
Brings convenience to 46-oz. cans (np) ... Oct. *33
Bulk container (nes) ... March *163
De-nest easily for high-speed filling (np). Nov. *29
For containerization (np) ... Jan. 29
Holds two entrees (np) ... June *27
Metal-on-glass for premium look (ppo) ... Feb. 29
Packs juice in PVC ... June *48
Saves on resin (np) ... Aug. *23
Square containers for livers, spreads (np). April *29
Tests composite package ... Dec. *44
The 'Bombe' comes in push-out container (pp) ... March *41
The packaging scene . . . A time of change. Kevin J. Hannigan ... March *53
Upgrades packaging for meats, fruits (np) ... May 31
Covers—Pail cover mates steel, plastic (np) ... June *27
Dispenser—Adds syrups, toppings to fill containers (np) ... Jan. *32
Dividers—Freezer dividers for snack items (pp) ... Feb. *50
Filler-Precise filler (np) ... June *29
Films
Heat-shrinks film on pallet loads (np) ... June 31
Ionomer skin pack for frozen meats (np). Feb. *33
Multipacks cans in low-cost film (np) ... April *29
Paper-like laminate (np) ... June *27
Protects snacks (np) ... Dec. 23
Two new films for fast wrapping (np) ... May 31
Foils—Novel game package for Easter candy (pp) ... March *41
Formers—Forms large boxes (np) ... Oct. *37
Glass—Machines boost glass production (ppo) ... Oct. 31
Glassine—Variety for snacks (np) ... Jan. *29
Jars—Portion-packs salad in glass jars (pp) ... Nov. *46
Labels—Puts ecology on labels (ppo) ... Aug. 19
Plastic—Plastic food bottles gaining (ppo) ... March 23
Polypropylene—Protects snacks (np) ... July *37
Pouches
Frozen sauces come in heat 'n pour pouches (pp) ... Jan. *43
Improved milk pouch (np) ... July *37
Pallet
One-trip pallet (nes) ... Aug. *93
Pallet loader (nes) ... Aug. *93
Plastic pallet (nes) ... Jan. *115
Plastic pallet (nes) ... Jan. *121
Plastic pallet (nes) ... May *209
Plastic pallet (nes) ... July *135
Plastic pallet (nes) ... Aug. *93
Plastic pallet (nes) ... Aug. *94
Plastic pallet (nes) ... Oct. *141
Polystyrene foam pallet (nes) ... Sept. *183
Programs handling of pallet loads. John V. Ziemba ... Sept. *74
Palletizer—Cuts risk of explosion with special burner (dib) ... Aug. *81
Palletizing—Makes pallet fit product. Donald Calabrese ... Feb. *91
Paneling—Paneling system (nes) ... Oct. *145
Paste—Increases viscosity of starch paste (at) ... April 111
Peanut
Environment modifies roasted peanut flavor (at) ... Sept. 129
USDA creates nutritive functional products. G. R. Hennessey, M. F. Stansbury and R. M. Persell ... April *71
Peanut Butter—Peanut butter powder is free-flowing (i) ... June 37
Peeler—Peels, stems and cores apples (nes) ... March *162
Peppers—Improves pepper flavors ... Dec. *49
Pies—Makes 16,000 pies per hour. E. M. Hargreaves ... July *67
Pitter—Pits 400 peaches per min. (nes) ... Jan. *114
Plastic
De-nest easily for high-speed filling (np). Nov. *29
Forged plastics on horizon (ppo) ... July 31
Pioneers in ecology. Kevin J. Hannigan ... July *58
New use for scrap plastics (ppo) ... Sept. 31
Pneumatic System—Fills powders, prevents dust ... Aug. *83
Pollution
Eliminates smoke and offensive odors (dib) ... May *119
Fights pollution in many ways. Granville W. Perkins ... Jan. 107
Libby stops air pollution. Raymond T. Batine & John V. Ziemba ... Aug. *60
Minimizes fruit peel pollution. R. P. Graham, M. R. Hart, J. W. Ralls, W. A. Mercer & H. J. Maagdenberg ... Aug. *52
Pollution control briefs ... Aug. *61
Reconditions brine to cut pollution. E. Lowe and E. L. Durkee ... Aug. *50
Recycling . . . A must for solid wastes. Julius Brody ... Aug. *56
Reduces BOD 99% . . . at low cost. John V. Ziemba ... June *66
Treats saline wastes at low cost ... Aug. *55
Turns pollution into profit. M. G. Barrington ... Sept. *70
Utilizes product waste ... Aug. *59
Portion Packaging—Makes portion packaging easy ... Aug. *69
Potato Chips—Revolutionizes the potato chip. James Russo ... May *44
Potatoes
Boost potato product quality, output ... May *76
Gears production to airline needs ... Oct. *119
Mobile unit speeds potato handling ... Jan. *89
Relates potato flavor with its composition (at) ... Oct. 126
Poultry
Automates poultry cutting ... Sept. *204
11 aids to production (Poultry fact finding conf.) ... July *122
Practical Ideas
Armour improves pork cutting (pi) ... June 87
Cans prefried bacon (pi) ... May *103
Chart records offer many benefits (pi) ... Sept. *96
Controls cleaning of water purifiers (pi) .. Sept. *95
Curd screening aids whey separation (pi) .. Jan. *89
Detects motion stops (pi) ... Oct. 91
Duct enclosures form lab's exterior walls ... April *87
Electronic 'apple' speeds research (pi) ... Aug. *75
Equipment monitor cuts downtime ... April *87
Evaporative method cools vegetables (pi) . Oct. *91
Mobile unit speeds potato handling (pi) .. Jan. *89
New angle stacking improves handling (pi) ... July *93
Peels frank casing with sterile air (pi) ... Sept. *95
Pin lock secures flush fasteners (pi) ... May 104
Power steering aids lift-truck operation (pi) ... March 87
Pumps beet trimmings without clogging (pi) ... May *103
Refrigeration system uses no pumps (pi) . May *103
Steps up production and efficiency (pi) ... May *107
System automates bacteria detection (pi) ... June *87
Surplus pipe, drums makes storage rack (pi) ... Jan. *90
Tilting belts double packing efficiency (pi) ... March *87
Vacuum cooling guards mushroom quality (pi) ... Feb. *85
Vibration plus heat for flow problems (pi) ... Oct. *91
Preservative—Develop preservative for meat and fish (at) ... July 125
Processing
Controls viscosity in processing (at) ... April *111
Developing nations need tropical processes. F. O. Aboaba ... June *72
New way to process sausage. Millard Reynolds ... Nov. *66
Saves on processing of dungeness crabs, W. Engesser, B. Adams, and P. Willis ... Oct. *70
Step-by-step to success . . . Making specialties. John V. Ziemba ... Oct. *79
Processor—Introduces new-generation processor. R. Redfern ... Jan. *60
Product Waste—Utilizes product waste ... Aug. *59
Protein
Factors in developing high-protein foods. A. Lachmann ... May G-40
Flavorful chips made from spun protein (pp) ... Aug. *38
Fish scrap offers high quality protein. J. H. Carver, F. J. King ... Jan. *75
High-protein food is made from curd (at) . June 108
High-protein foods made from skim milk (at) ... Jan. 105
Oatmeal-raisin cookie high in protein (i) .. Feb. 49
Oilseed protein useful for its amino acids (at) ... March 119
Make nut-like product from seed kernels (at) ... Jan. 105
Manufactures peanut protein isolate (at) ... April 111
Replacement products challenge of the 70's ... May 141
Search for new food sources. Kevin J. Hannigan ... Feb. *74
Textured vegetable proteins come of age. R. E. Martin, Ralph Wiggins & John V. Ziemba ... May *80
Prunes—Diced prunes offered in free-flowing form (i) ... Nov. *44
Pump
Centrifugal pump (nes) ... Sept. *188
Easily synchronizes process pumping (dib) ... Feb. *95
Food pump (nes) ... March *163
Metering pump (nes) ... June *113
Metering pump (nes) ... Aug. *93
Pumps beet trimmings without clogging (pi) ... May *103
Sanitary rotary pump (nes) ... April *117
Small pump (nes) ... Aug. *98
Two-stage vacuum pump (nes) ... June *113
Vacuum pump (nes) ... Jan. *115
Puree—Improves flavor of papaya puree (at) ... Sept. 130

R

Racks
Storage racks (nes) ... July *135
Surplus pipe, drums make storage rack (pi) ... Jan. *90
Recycling—Recycles 6 million lb. of waste (ppo) ... Feb. 29
Refractometer—Refractometer uses simple probe (nes) ... Aug. *92
Research
Electronic 'apple' speeds research (pi) ... Aug. *75
$400,000 for research (tm) ... Oct. 29
R & D center provides unique flexibility. . Dec. *108
Search for new food sources. Kevin J. Hannigan ... Feb. *74
What's coming through research in '71. Kevin J. Hannigan ... Jan. 56
Retorter—Sharpens control of retorting ... Dec. *30
Retorting—Evaluates variables in fluidized-bed 'retorting' R. Jowitt and S. N. Thorne ... Nov. *60
Reverse Osmosis
Helical-tube reverse osmosis (nes) ... Nov. *186
Improves reverse osmosis ... May 54
Low cost reverse osmosis (nes) ... Sept. *182
Reverse osmosis engineering considerations. F. Besik, G. Zarnett, V. Pancuska and A. Mlynarczyk ... July *72
Reverse osmosis unit (nes) ... Sept. *186
Rice—Seasoned rice entrees for menu variety (pp) ... Aug. *38
Roaster—Develops continuous pressure roaster. Frank K. Lawler ... Feb. *67

S

Safety—Ups employee safety with bump caps (dib) ... Jan. *97
Salmonella—Offers rapid detection of salmonella (at) ... July 125
Salt
'Brine mine' cuts cost ... Aug. *103
Determines relative solubility. Richard Kolasinski ... Dec. *88
Measure heat and salt in cooking foods (at) ... June 107
Reconditions brine to cut pollution. E. Lowe and E. L. Durkee ... Aug. *50
Sanitation & Maintenance
Alkaline cleaner useful in hard, soft water (sm) ... Jan. *128
Central cleaning system controls detergent (sm) ... Aug. *100
Cleaning emulsion has 'double action' ... Oct. *152
Coating is flexible resists water, rust (sm) ... April *132
Combats air pollution by oxidation (sm) .. June *119
Compact air cleaner is easy to maintain (sm) ... Feb. *126
Convenient mist dispenser kills insects (sm) ... Dec. *110
Cuts cleaning time by one-third ... April *131
Easily applied wax-type coating reduces cleaning costs (sm) ... March *177
Electrocutes insects (sm) ... June *120
Fights litter with higher refunds (ppo) ... Jan. 25
Flexible nylon coating is also waterproof (sm) ... April 132
High-powered pump is efficient, inexpensive (sm) ... May *227
High pressure washer is surge-free (sm) . Nov. *195
Incinerates insects on contact (sm) ... Jan. *128
Kills insects by electrocution (sm) ... Sept. *199
Litter blower is mobile (sm) ... Nov. 195
Multi-purpose washer (sm) ... June 119
Nascent chlorine kills microbes (sm) ... Aug. *100
New bait station is disposable (sm) ... March 179
New flexible gloves wear longer (sm) ... Dec. *110
New lubricants meet stricter regulations (sm) ... Jan. 132
New lubricants protect overheated equipment (sm) ... March *179
New washer-sanitizer guards food shelf-life (sm) ... June *119
Offers non-phosphated detergent-sanitizer (sm) ... May 227
Paint features safety and utility (sm) ... Jan. 128
Pan washer loads, unloads at same time (sm) ... Nov. 195
Patches concreate rapidly (sm) ... May *228
Polyester coatings permit fast spraying (sm) ... Nov. 195
Patches surfaces fast (sm) ... Feb. *129
Portable cabinet offers good storage facil-

Index to Vol. 43, January, 1971 to December, 1971

ities (sm) ... Dec. *111
Portable washer is lightweight (sm) ... July *154
Pressure cleaning unit increases efficiency (sm) ... Feb. *126
Provides bactericidal and fungicidal action (sm) ... Sept. *199
Ready-to-use enamel resembles tile (sm) .. July *156
Reduces shrinkage of insulating cement (sm) ... Dec *111
Removes pollutants from effluents (sm) ... Oct. *152
Removes rust fast, bonds paint (sm) ... Nov. 196
Rodenticide destroys many rodent types (sm) ... June *120
Sanitizes hands gently (sm) ... June 119
Static eliminator requires no maintenance (sm) ... July *154
System eliminates intermediate rinse (sm) ... April *131
Tools to keep America beautiful (ppo) ... Jan. *25
Tow-type sweeper is versatile (sm) ... Aug *100
Unit improves fluid pick-up (sm) ... April *131
Valves (sm) ... March 179
Waterless cleaner protects hands (sm) .. March *177

Sanitizer – Combine heat, pressure for efficient cleaning ... Jan. *101

Sausage – New way to process sausage. Millard Reynolds ... Nov. *66

Scale – Batching scale (nes) ... July *136
Sanitary scale (nes) ... Sept. *188
Scale (nes) ... Sept. *183

Screen
Polyester screen cloth (nes) ... Oct. *141
Screen (nes) ... Aug. *97
Screens beans at 4500 lb per hr. (nes) ... April *116
Vibrating screen (nes) ... Oct. *141

Seafood – Control rapid changes in seafoods (at) ... March *119

Sealer
Permits high-speed wraps in OPP (np) ... Jan. 36
Seals multiwalls (np) ... Oct. *38
Tapes mixed cases without stopping (np). Jan. 32

Segregation – Curbs segregation of bulk-stored mixes. N. DeBonte ... Nov. 53

Sensors – Pressure sensor (nes) ... Sept. *193

Separation – Fluidizes product, removes iron (nes) ... June *112

Shrink Film – Guards pallet loads with shrink-wrap (pi) ... Dec. *77

Shrink System – Shrink system (nes) ... Aug. *96

Shrink Wrapping – Shrink-wraps multipacks at 1500 cpm (np) ... April *30

Shucking – Saves on processing of dungeness crabs. W. Engesser, B. Adams, and P. Willis ... Oct. *70

Sifter
In-line sifter (nes) ... July *140
Sanitary sifter (nes) ... Sept. *193

Slicer – Vegetable slicer (nes) ... Oct. *145

Soups – For bigger appetites a little extra (pp) ... Nov. *47

Soybean – Extrusion retains soy properties (at) ... June 107

Soy Protein
New soy proteins (i) ... Sept. *48
Showcase plant spins soy protein. John Ziemba ... Jan. *66

Soy Sauce – Powdered soy sauce (i) ... April 42

Spaghetti – New technique packs spaghetti automatically ... April *75

Size Reduction – Size reduction (nes) ... Jan. *115

Snacks
Adds two flavors to snack line (pp) ... Sept. *53
Makes new snacks of high quality (at) ... Nov. 139
New snack ideas from Europe. A. Lachmann ... June 111
Offers new snack (pp) ... Dec. *43

Spray Dryer – Handles 'hard-to-dry' products ... Oct. *68

Stainless Steel
Curbs air pollution (dib) ... Dec. 87
Saves money, worry ... Jan. *95

Stains – Olefin carpeting releases stains (pi) ... Dec. *77

Stapler – Low-cost stapler (np) ... July *44

Starch
New starch excels in high-speed continuous processing (i) ... Dec. *35
Recovers starch from sorghum (at) ... May 145
Separates protein from starch in flour (at) ... Aug. *85
Starch stabilizer can replace natural gums (i) ... July 53

Steam Trapping – Steam tracers and their traps ... July *103

Steel
Beer keg permits sterile filling ... March 124
Rim-bin: for versatile efficient handling . Sept. *99
Stainless steel (nes) ... Sept. *188

Sterilizer – Gas sterilizer (nes) ... Feb. *121

Storage
New concept in live storage (nes) ... July *134
New high in mobile storage. Robert B. Cannon ... Oct. *103
Portable cabinet offers good storage facilities (sm) ... Dec. *111
Rectangular 'drum' saves $ ... Sept. *56

Storage System – Speeds oxygen pulldown in controlled atmosphere ... June *103

Strainers – Wire cloth strainers (nes) ... Aug. *93

Sugar – Burnt-sugar flavor has many applications (i) ... Oct. 45
Carbonation system aids sugar refining. F. Desmond & A. Alba ... April *107
High-dextrose tableting sugar offers many advantages (i) ... Feb. *47

Switches
Detects motion stops (pi) ... Oct. 91
Switch aids packaging (pi) ... Nov. *109

Syrup – High-fructose corn syrup provides total sweetener requirement (i) ... March *37

T

Tableting – High-dextrose tableting sugar offers many advantages (i) ... Feb. *47

Tagger – Meat tagges (nes) ... Jan. *117

Tanks – Low-cost plastic tanks (nes) ... Dec. *103
Tank lining (nes) ... Sept. *191
Tank scraper (nes) ... Dec. *104

Tape
Improved tape dispenser (np) ... March *30
More tape per roll (np) ... Feb. *33

Taste – Science tackles taste and smell ... Sept. *82

Technology
Aflatoxin M absent in milk products (at) . Sept. 126
Air dries mushrooms (at) ... April 111
Bactofugation extends shelf-life of juice . July 125
Butter wins again (at) ... Oct. 125
Control rapid changes in seafoods (at) . March 119
Controls viscosity in processing (at) ... April 111
Dairy automation reduces operating cost (at) ... Sept. 126
Deodorizing milk fat improves flavor (at) . July 125
Detects synthetic culture flavors (at) ... Jan. 105
Develop preservative for meat and fish (at) ... July 125
Dries by osmosis and vacuum (at) ... Jan *105
Environment modifies roasted peanut flavor (at) ... Sept. 129
Examines various fats by rapid method (at) ... June 108
Evaluate viscosity of food binders (at) ... May 146
FPC affects dough, Lysine doesn't (at) ... Aug. 85
Fermentation converts cellulose to proteins (at) ... May 145
Find hydrocarbons in wheat (at) ... Sept. 126
Food technology & development. Aldo Buffa ... Dec. *61
Fractionates whey with membranes (at) . Oct. 126
Freezing disrupts carrot cell structure (at) ... Sept. 125
Freeze-drying helps insecticide removal (at) ... Nov. 140
GLC and taste panel aid flavor testing (at) ... Jan. 105
Improve flavor of cheddar curd (at) ... Feb. 111
Improves distillation (at) ... Nov. 140
Improves flavor of papaya puree (at) ... Sept. 130
Inhibits food spoilage caused by botulism (at) ... Dec. 95
Hens could transmit ingested ddt to eggs (at) ... May 146
Improve nutrient value of cooked legumes (at) ... Nov. 139
Improves qualities of butteroil (at) ... May 145
Increases viscosity of starch paste (at) .. April 111
Isolate many pigments in shamouti oranges (at) ... July 125
Liquid co2 effective in aroma extraction (at) ... May 145
Make nut-like product from seed kernels (at) ... Jan. 105
Makes new snacks of high quality (at) ... Nov. 139
Manufactures peanut protein isolate ... April *111
Measures fungicide in citrus fruit (at) ... June 107
Microbes resist gas sterilants (at) ... Feb. 111
New Oleic oil is good for potato chip frying (at) ... Nov. 140
Oilseed protein useful for its amino acids (at) ... March 119
Optimum storage for plants gives (at) .. March 119
Orange oil varieties differ chemically (at) . May 145
Increases proteins at low cost (at) ... March 119
Lacks meaty aroma (at) ... Aug. 85
Makes multi-layered gelatin desserts (at) ... Sept. 125
Measure heat and salt in cooking foods (at) ... June 107
Minerals affect beverage flavor (at) ... Sept. 125
Novel coating for frozen foods (at) ... Dec. *95
Offers rapid detection of salmonella (at) .. July 125
Prepares FPC by aqueous extraction (at) . May 146
Prevent wet cans rolling into labeller (at) ... May 146
Produces milk-clotting enzyme from molds (at) ... Aug. *85
Rapid, precise test for fat in meat (at) ... Nov. 139
Reclaims whey protein with CMC (at) ... Nov. 139
Recovers starch from sorghum (at) ... May 145
Relates potato flavor with its composition (at) ... Oct. 126
Removes 80% of peels by dry-rubbing (at) ... Nov. 139
Separates protein from starch in flour (at) ... Aug *85
Simulates cow's milk with soy (at) ... Oct. 125
Storing cultures at 3C slows acid production (at) ... April 111
Sunflowers – a useful crop ... Oct. 125
Test for aflatoxin in grains (at) ... Jan. 105
Tests orange-juice concentrate stability (at) ... Feb. 111
Transatlantic food technology. Aaron L Brody ... April *89

Teflon
Teflon screens (nes) ... Feb. *119
Teflon tubing (nes) ... June *113

Telemetry – Radio waves monitor product temperature. D. J. Steele ... June *88

Temperature – Measures temperature by telemetry. P. L. Goldfarb ... Oct. *61

Texture – Enhances texture of fabricated seafood. R. J. Learson, B. L. Tinker and L. J. Ronsivalli ... Feb. *87

Tile – Easy way to install tile ... Sept. *229

Timer – Motor timer (nes) ... Sept. *184

Trailers – Unloads piggyback trailers ... Sept. *178

Transmitter
Image transmitter (nes) ... June *113
Measures flow of solids (nes) ... Dec. *102

Trap – Steam trap (nes) ... May *209

Trays – Shrink-wraps trays at high speed (np) ... Nov. 36

Trucks – Keeps trucks clean at low cost (dib) ... March *102

Tubes – Saves money worry ... Jan. *95

Tuna – How homemakers react to tuna withdrawal ... Jan. 18-A

Tunnel
Quick chill tunnel (nes) ... Jan. *118
Shrink tunnel (nes) ... Jan. *115

U

UNICEF
Food technology & development. (part I) Aldo Buffa ... Nov. *79
Food technology & Development. (part II) Aldo Buffa ... Dec. *61

Unit Operations – Strides in unit operations ... Nov. *125

V

Vacuum Packs – Finds vacuum packer highly versatile (dib) ... April *105

Valves
Control valve (nes) ... April *118
Control valve (nes) ... Feb. *123
Metering valve (nes) ... June *115
Sanitary outlet valve (nes) ... Feb. *119
Teflon check valve (nes) ... April *117

Vibrations
Tests fruit ripeness by sonic vibrations (at) ... Dec. 95
Vibration plus heat for flow problems (pi) . Oct. *91

Viscosity – Evaluate viscosity of food binders (at) ... May 146

W

Waste
May use wastes for power (ppo) ... Aug. 19
Paper is recycled, too (ppo) ... Jan. 25
Recycles 6 million lb. of waste (ppo) ... Feb. 29
Treats saline wastes at low cost ... Aug. *55
Waste compactor (nes) ... Feb. *119
Waste problem to worsen. E. Willoughby and W. C. Wing ... Sept. 133

Waste Disposal – Electric charge speeds waste disposal. O. A. Clemens and John V. Ziemba ... Aug. *47

Waste Treatment
Improves water softening. J. Francis, R. D. Baker, J. W. Braswell ... Feb. *70
Processes wastes for profit ... Dec. *56

Weight – Simplifies weight control (nes) ... Feb. *118

Weigher
Weigher (nes) ... Aug. *97
Weighs nuts fast – and to 0.001 lb. (dib) ... July *109

Weighing – Box weighing system (nes) ... Oct. *141

Wheat – Find hydrocarbons in wheat (at) .. Sept. 126

Whey
Curd screening aids whey separation (pi) . Jan. *89
Fractionates whey with membranes (at) .. Oct. 126
Whey protein is bland, soluble and nutritious (at) ... Feb. 111

Wine – Winemaking surges ahead. R. M. Mondavi & Carl R. Havighorst ... Feb. *59

*Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents.

Packaging systems ... what type for your products? ... Sept. *169
Shenkenberg, D. R. – Develops milk-orange juice ... April *97
Sistowicz, Robert R. – Cuts cleaning costs ... Dec. *90
Smith, M. E. – Computers control operations ... June *62
Spiehler, V. – Predicts oil stability ... Aug. *77
Stansbury, M. F. – USDA creates nutritive functional products ... May *85
USDA creates nutritive functional products ... April *71
Steele, D. J. – Radio waves monitor product temperature ... June *88
Swan, D. – Innovates better-quality beef ... July *63
Swift, J. R. – Measures moisture with infrared ... Dec. *83

T

Thorne, S. N. – Evaluates variables in fluidized-bed retorting ... Nov. *60
Tinker, B. L – Enhances texture of fabricated seafood ... Feb. *87

W

Westcott, C. C. – Controls beverage quality with electrodes ... July *115
Wiggins, Ralph – Textured vegetable proteins come of age ... May *80
Willett, Roslyn – Food service packaging opportunities and challenges ... March *67
Willis, P. – Saves on processing of dungeness crabs ... Oct. *70
Willoughby, E. – Waste problem to worsen. Sept. 133
Winters, W. W. – Automating specialty-food processes ... June *68
Woollen, Anthony – Advances from Europe ... March 61
Advances in Europe ... Nov. *75

Y

Ying, W. C. – Waste problem to worsen ... Sept. 133

Z

Zarnett, G. – Reverse osmosis ... engineering considerations ... July *72
Ziemba, John V. – Automation triples output ... Dec. *96
Breaks the cost barrier ... April *68
Controls cheese 'metability' ... Oct. *59
Convenience label offers nutritional data ... March *44
Develops unique cultured dairy product . April *50
Electric charge speeds waste disposal ... Aug. *47
Innovates better-quality beef ... July *63
Libby stops air pollution ... Aug. *60
Maximizes efficiency and sanitation ... Sept. *89
Multiple logo creates impact ... Aug. *42
New high in beverage canning ... July *83
New way to fabricate meats ... Jan. *64
Reduces BOD 99% ... at low cost ... June *66
Sara Lee does it again ... Feb. *63
Showcase plant spins soy protein ... Jan. *66
Step-by-step to success ... making specialties ... Oct. *79
Textured vegetable proteins come of age . May *80
Total environment control ... Sept. *61
What to know about "pre-whips" ... May *72

*Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents.
